CLAIM ATTESTATION

[INSURED'S FULL NAME AND ADDRESS] (the "Company") hereby attests that it has not at any time during the period of the policy in any way whatsoever, whether directly or indirectly, provided any financial services or funds in pursuance of or in connection with, or been otherwise involved in, an arrangement whose object or effect was a supply or delivery of any oil (HS code 2709 / CN code 2709 00 / HTS code 2709.00) or oil product (HS code 2710 / CN code 2710 / HTS code 2710), originating in or consigned from Russia (the "Russian Oil" and the "Russian Oil Product", respectively), from a place in Russia to a third country or from one third country to another without the price paid for the Russian Oil or the Russian Oil Product, as the case may be, at all material times being at or below the relevant price cap set by the Price Cap Coalition as may be amended from time to time (the "Price Cap") regardless of whether the Company itself was/is under a legal obligation to comply with the laws, regulations and rules concerning the maritime transportation and related services prohibition, and the Price Cap exception thereto, imposed by the Price Cap Coalition.

The Company further attests that it holds (a) price information demonstrating that any such Russian Oil and Russian Oil Product as may in any way whatsoever relate to or be connected with the claim or with the arrangement in respect of which a claim is notified under the policy, or with the circumstances giving rise to the notification, was at all material times purchased or sold at or below the relevant Price Cap, unless it was and remains not practicable to request and receive such information; and (b) a signed attestation from each party with whom the Company transacted in relation to or in connection with such arrangement or Russian Oil or Russian Oil Product, as the case may be, confirming that the price paid for it does not breach the relevant Price Cap as at the time of the transaction.

The Company also attests that, insofar as it was under an obligation to do so, it has at all times reported or will report to the relevant authorities as required its involvement in the supply or delivery of any Russian Oil and Russian Oil Product in accordance with the applicable Price Cap exception.
